

DRAFT AGENDA

**Biology Committee Conference Call
15 Sept 2014; 9:00 am – 12:00 pm
1-877-328-8317; passcode: 523004#**

Approve 5 August 2014 draft meeting summary and review Action Item list

- I've attached Reclamation's revised proposal and associated analysis. The BC should provide any further review to Reclamation and recommendation to their CC representative by 15 October.
- Discuss the Peer Reviewers' comments on the Phase 2 restoration monitoring that were recently distributed. I've also included that file for your reference.
- Finally, during today's CC conference call, the group discussed holding a one day workshop for the BC and Peer Reviewers to review the Population Model. We can discuss scheduling this workshop during Monday's call. One option could be to add a third day to the BC's December meeting in Durango (the Public Lands Center is available 5 December).

Schedule next call/meeting
